Dear The Federal Communications Commission,

Hello Mr. Kevin Martin,

And Congratulations on your appointment to Chair the FCC.

I urge you to support the "Fair Share Plan" as a solution to current concerns with the Universal Service Fund (USF). This will keep the USF fair, if the "Fair share plan is adopted.

Further, I understand that the tax to expand the landline service to rural America U.S. adopted in the '30s & 40s has never been withdrawn although the project was completed years ago. WHAT HAS HAPPENED TO ALL THAT MONEY? I would like to suggest that this be used to expand the cell system across the rural areas and also to fund this sudden and to my mind unjustified plea for even more tax levies.

Sincerely, Mr. Greg Adams
